CLEAR WAX FOR DECORATIVE FINISHES

Wax Gloss

Ready to use

Ready-to-use clear wax for enhancing the lustre and smoothness of compatible decorative finishes. Suitable for use with Venetian Plaster, Atmosfere and Marmorino 300, and for refreshing Venetian plaster that has lost its gloss, after checking the substrate.

Intended uses

- Finishing and enhancement of Venetian Plaster.
- Decorative treatment of compatible Atmosfere and Marmorino 300 surfaces.
- Restoring the appearance and gloss of Venetian plaster after checking the substrate.

Preparation and application

1. Check the finish

Check that the coating is compatible, clean and sufficiently dry. On existing surfaces, also assess any previous treatments.

2. Use the product

Wax Gloss is ready to use. Spread evenly with an accessory suitable for the surface.

3. Work and polish

In the Venetian Plaster system, use a sponge or cloth suitable for working the wax. Carry out a test to establish the method and final appearance. An 8-hour wait is recommended between coats; check actual dryness before recoating.

4. Check the result

Check uniformity, gloss and colour changes on the sample. Assess the result once the sample is dry.

Application notes

Assess waxing on the actual decorative coating. A sample helps to check gloss, uniformity and the final appearance.

Storage

Store in the tightly closed original container in a suitable place, protected from frost, direct sunlight and sources of heat. Reseal carefully after dispensing and follow the instructions on the label.

Safety

Read the product label and Safety Data Sheet before use. Wear the specified personal protective equipment and work with adequate ventilation. Do not release residues into the environment.
